

Hanging Rail

Fits Kampa AccessoryTrack®

The Hanging Rail is designed to fit to the AccessoryTrack® fitted to certain Rally and Fiesta awnings. It will also fit other awnings that are fitted with an internal track designed to accept bracket pads.

The picture shows the hanging rail being used with the optional Jack Hanger - *product code ST0012*

Fitting Instructions

It is easier to fit the Rail to your awning before setting the awning up.

1. Locate the dark grey AccessoryTrack® on the inside of your awning next to the awning keder.
2. Slide the plastic clips, located at the ends of the two webbing straps, onto the AccessoryTrack®.
3. Set up awning ensuring that the Rail does not touch your caravan. Alternatively the rail can be attached after the awning has been attached to the caravan but before it is set up.
4. Slide the Rail to your desired

DO NOT OVERLOAD THE RAIL

Remove the hanging rail before folding the awning.

- Rally Air from 2014
- Rally Pro from 2014
- Fiesta AIR from 2014
- Rally Ace from 2014
- Kampa Classic awnings from 2010
